

New Beginnings Day Spa

Microblading After Care

After your procedure, clients are asked to follow these instructions:

Within 2 hours after the procedure, clean brows using a q-tip and lightly moisten with distilled or cooled down boiling water.

Gently wipe away the old healing balm and any lymphatic liquid (clear yellowish liquid) that may have built up. Lightly pat dry with tissue and using a new q-tip, re-apply healing balm to the brows.

Make sure to apply a light layer of healing balm morning and night to brows for at least 5-7 days.

Do not over apply healing balm.

Do not immerse brow area in water for 14 days. When showering, make sure to avoid face area. When cleaning or washing face, make sure to avoid brows and clean around it.

Do not put makeup on the brow area for a minimum of 10 days. Micro-bladed area is an open wound, using makeup may cause infections.

Avoid alcohol and aspirin/ibuprofen and any vitamins that may thin your blood for 24 hours.

Brow area will feel slightly itchy as it heals and will start to lightly scab over. Do not peel or pick at the scabs as this can affect the outcome and pigmentation.

Do not go swimming, tanning or into saunas for at least 14 days.

No face scrubs or chemical peels at least 2 weeks after.
